## A \_\_\_\_\_ about the Existence of God!

### 1. A \_\_\_\_\_ argument for the existence of God.

*“To suppose that the human eye, with so many parts all working together, could have been formed by natural selection seems, I freely confess, absurd in the highest degree.”*

Charles Darwin, *Origin of Species*

*“There cannot be a design without a designer. There cannot be contrivance without a contriver. There cannot be order, anywhere, without choice. It takes a lot more faith to believe in an accidental explanation for the wonders of what we see around us in the world, than it does to believe that an intelligent, powerful, divine designer is the cause of it.”* Philosopher William Paley

In *Mere Christianity*, C.S. Lewis concludes that *“The universality of that moral sense of oughtness that is stamped on every human heart, just the mere presence of that moral code, should move every hardened skeptic to a point of intellectual openness about the existence of a supreme moral being. There simply is no other reasonable explanation.”*

### 2. A \_\_\_\_\_ argument for the existence of God.

*“I thought Christianity was spelled D-O. I thought it was about all those things you had to do to try to climb your way up to the acceptance of God. And then I learned from the Bible that Christianity would be better spelled D-O-N-E! It’s God coming downstairs. It’s what Jesus did when He died on the cross that took care of my sin; made me acceptable to God.”*

*What about your story? Have you told anyone your story? What a wonderful world it would be if followers of Christ would tell their story and people seeking answers would listen and be open to exploring the greatness of God... thus changing the world with the love of Jesus Christ, one life at time.*
